JOHN CALDER
FOUNDER OF
CALDER MILLERFIELD LTD.

About Calder Millerfield

Suppliers of Quality Meat Products to the Retail and Wholesale Markets

Calder Millerfield was founded by John Calder in 1961. The company has grown from fairly modest beginnings, into a premium quality meat product manufacturer supplying the retail and wholesale markets.

Calder Millerfield was incorporated in 1961 when our founder, John Calder, commenced trading from premises in Millerfield Road in Dalrnarnock in the east end of Glasgow.

A butcher to trade, John Calder saw an opportunity to expand and develop the business he already had through his two shops in the city's south side.

How we started

In the beginning, the company combined butchery and bakery goods and supplied a diverse range of customers via sales vans, and through the factory shop, including chip shops, cafes and work canteens.

The chip shop supply side of the business soon became the major contributor to turnover, with good relations developing between Calder Millerfield and the 'Scottish Italian' community who ran the majority of chip shops.

Today

Presently, through our own fleet of sales vans and numerous agents, we cover the majority of Scotland and into the north of England. The chip shop business is as important today as it was in helping to establish Calder Millerfield back in the 1960's and 1970's.

In the mid 1980's, we diversified into supplying supermarkets with The co-operative being the first to stock a wide range of our products. You can currently find a variety of our products – both branded and own label – stocked by The co-operative, Scotmid and Sainsbury's.

We are a family business with strong traditional values. From director level, where the Kyle's and Findlater's have been involved since day one, down through our strong purposeful management team and highly skilled and experienced workforce. We are well equipped to stay at the forefront of quality meat product manufacturing.

The Future

In 2011, we celebrated 50 years in business – here's to the next 50!

Please browse through our brochure or find our website online at www.caldermillerfieldltd.co.uk to see the variety of top quality products we offer and contact us if you require any further information.

Our Standards & Our Partners

Suppliers of Quality Meat Products to the Retail and Wholesale Markets

As one of Scotlands leading meat product manufacturers we supply a wide range of quality produce from our EC approved premises in Glasgow.

The highest quality meat and ingredients, added to strict Quality Assurance procedures and a skilled staff, not only produce a premium range which includes sausages, burgers, haggis, black puddings, scotch pies and more, but also combine to 'A' standard BRC accreditation.

The Scotch Pie Club

We are fully committed to remaining the preferred supplier to the chip shop industry in Scotland and firmly believe that our no compromise policy with regard to the quality and consistency of our products will keep us at the forefront of this sector.

The **co-operative**

Many of our chip shop customers are third generation family businesses who, like ourselves, have a wealth of knowledge and experience that's been passed down through the years. It's our goal to work together with these shop owners, developing closer relations with them and listening to their feedback, so we can keep our product offering relevant to current needs.

Sainsbury's

Supplying The co-operative, Scotmid and Sainsbury's has given our company the opportunity for exposure in retail sales and we intend to grow our market share in this area by offering premium quality products at competitive prices. This will be aided by engaging in regular promotional activity.

From preparation to pitch, our dedication to quality ensures you enjoy a fresh and delicious product every time!

Going forward, our continued commitment to growth is borne out by the substantial investment we have made in advertising with Real Radio and pitchside digital adverts with The Football Co. This is being employed to help increase our brand awareness across chip shops and supermarkets.
